1 x Small 4 inputs mixer (for the stage)

Stage elements & other

2 x Keyboard stands

6 x Microphone stands

2 x Guitar stands

Tables of different sizes

1 x Video projector

Notes

- Please note we don't have a backstage.

- Regarding the low frequencies:

We want to keep frequencies around 60 Hz in tight control, so we cut in this area and down. The PA can work precisely above 80 Hz.

Please keep that in mind if you plan to play bass-heavy tracks... Tighten and cleanse your bassy instruments! (always great to play in many venues anyway! You'll thank us later if you didn't know that already)
